

Overactive Bladder Research Study for Women

## Where is your focus?

**...on your  
overactive  
bladder?**

Overactive bladder makes it difficult to perform daily activities.

You do not know when the sudden, strong urge to urinate will happen.

**...or on the  
things you  
love to do?**

Now there is a research study testing the safety and effectiveness of a new delivery method of an overactive bladder medication for women. Qualified participants:

- are women age 18 and older
- are experiencing overactive bladder symptoms with urgency for over 6 months
- have not had three or more urinary tract infections in the past year

*Qualified participants will receive study-related exams, lab tests and study drug at no charge.*
