

CLINICAL TRIALS OF TEXAS, INC.

ARE YOU CURRENTLY TAKING **ULCERATIVE COLITIS** MEDICATIONS?

Clinical Trials of Texas, Inc is currently conducting a **research study** to evaluate the safety and efficacy of an investigational anti-inflammatory drug in subjects with active mild or moderate ulcerative colitis when administered for approximately 8 weeks. If you are male or female, 18 -75 years of age and have been suffering from ulcerative colitis for at least 6 months, you may be eligible to participate. Qualified participants will receive investigational study medication, study-related exams, and lab tests at no charge. Financial compensation for time and travel may also be available.
