EAR-A-TATION?

A Clinical Research Trial for Children with Ear Tubes and Ear Infections

The Provide Clinical Research Trial is currently being conducted in your community to evaluate an investigational medicine for the treatment of children with ear tubes and ear infections with visible drainage.

Participants will receive (at no cost):

- A priority appointment with a specialist
- Diagnostic testing and ear exams
- Study medication
- Close follow-up exams

Plus, you will be compensated for your time and travel.

If your child has ear tubes and an ear infection with drainage, and is between 6 months and 12 years old, he or she may be eligible to participate.

Call today for more information.
