

CLINICAL TRIALS OF TEXAS, INC.

DO YOU **SUFFER** FROM **PAINFUL CRAMPING** IN YOUR **LEGS** (HIPS, THIGHS, OR CALVES) WHEN **WALKING** (CLIMBING STAIRS OR EXERCISING)? DOES IT **STOP** WHEN YOU **REST**?

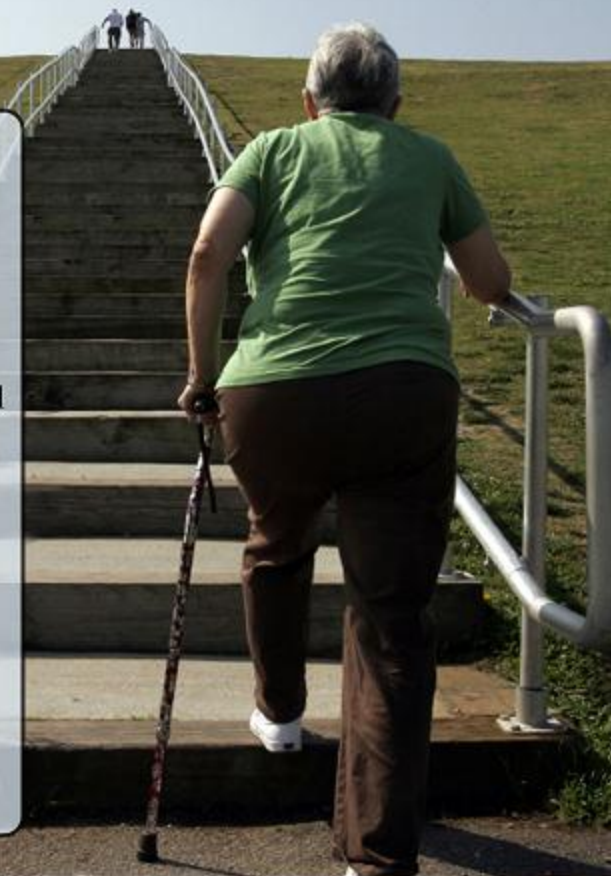

This painful cramping may be related to peripheral arterial disease (PAD). If you are 40 years or older, you may qualify for a research study of an investigational medication for people who have peripheral arterial disease. Qualified participants will receive study drug and may receive compensation for time and travel.
