

CLINICAL TRIALS OF TEXAS, INC.

Research Study for People with

TYPE II DIABETES

Clinical Trials of Texas, Inc. is currently conducting a research study of an investigational medication for men and women with type II diabetes. This study will follow you for up to seven years. Study participants will receive study drug or placebo, lab tests and study related medical exams at no charge. Financial compensation for time and travel may also be available.

You may qualify if you are:

- 18 years or older
 - Type II Diabetes
 - A1C level between 7.0% and 10%
- (Other criteria apply)
